

Rentals at Society for Arts and Technology

General information about the SAT dome,
the Satosphere

SATOSPHERE

Located on the top floor of the SAT building, the Satosphere is a dome-shaped immersive theater, a spherical projection screen measuring 18 meters in diameter and 13 meters in height. The Satosphere is a truly unique event space, as the space itself greatly enhances the audience experience.

Adjacent to the dome is a large foyer equipped with a service counter; lighting, projectors, TVs, speakers and furniture can all be installed here, as you wish. The dome's partitions can be opened or closed, for a wide range of room layouts.

With a highly skilled technical team at your disposal, we'll make your event visions come true under a dome. This universally accessible space can be privatized on Sundays and Mondays, and exceptionally on weekdays.

1

AREA

18-meter diameter

2

CAPACITY

cocktail layout: up to 500 people standing
seating arrangements: up to 130 people

3

MAIN EQUIPMENT INCLUDED

complete immersive sound system (93 channels),
spherical screen and

IMMERSIVE CONFERENCES AND CORPORATE EVENTS

The Satosphère allows you to completely renew the conference formula. Whether you use the entire dome or just a part of it, this space combines innovation, high capacity and quality content. The adjacent foyer can be used as a networking and service area, so you can easily create a warm and inviting meeting environment.

FESTIVE EVENINGS

The dome is particularly well known for its festive evenings. With its huge capacity, top-quality sound and visuals, and multiple scenic possibilities, you won't be able to compare this event with any you've organized before

IMMERSIVE DINNERS

Immersive dinners offer an out-of-the-ordinary opportunity to get together, whether you're looking for a break from beige reception halls or simply want to push the boundaries of the classic restaurant formula.

FREQUENTLY ASKED QUESTIONS

What is the Satosphere's availability?

The dome is only available for privatization on Sundays and Mondays. Certain exceptions can be made to free up other time slots; please ask our team.

Is it possible to install a bar?

The foyer adjacent to the dome is equipped with a service counter, and additional counters can be added to your layout. Please note that SAT has alcohol licenses and service teams, so it's not possible to have your own meeting permit.

Can minors have access to the dome?

Absolutely.

Are the building and hall universally accessible?

Yes.

How much does it cost?

Contact us for a price list. We offer preferential rates for NPOs; certain conditions apply.

Is it possible to project whatever you want into the dome?

To exploit the full surface area of the dome, the files must be custom-designed. That said, it's perfectly possible to project power point presentations too. The difference will be the surface area used for projection. Our technical team will be happy to assist you.

Is there a food service?

Yes, you have the choice of working with the SAT restaurant, Le Pavillon, or using an outside service.
